Your pharmacy should be filling all your prescriptions for medications that you were taking before January 1, 2006. This should be happening without question, prior authorization, or problems at least until June 30, 2006. Please contact the Pennsylvania Health Law Project at 1-800-274-3258

- If the pharmacy filled the prescription(s) once but not again.
- If the plan contacted you to inform you that you could not continue on a particular medication.

**Are you able to see all of your normal doctors?**

We have reason to believe that well more than half of medical services are being inappropriately denied by one or more of these plans. *This is in violation of a legal settlement agreement.*

You should be able to see all of your Medicare providers, regardless of whether they participate in your Medicare plan. This should happen without question, prior authorization, or problems at least until June 30, 2006. Please contact the Pennsylvania Health Law Project at 1-800-274-3258
